

We are pleased to let you know that healthcare providers (HCPs) are now able to begin the insurance benefits investigation process for their patients in preparation for availability of RADICAVA. RADICAVA is on schedule to be available to patients in the U.S. in mid-August 2017.

The benefits investigation and product access process is initiated by your HCP and facilitated through the Searchlight Support™ hub, which provides assistance for patients prescribed RADICAVA. Key steps in the process include:

- 1) **TREATMENT DECISION:** Patient visits HCP, who determines whether RADICAVA is an appropriate treatment for him/her.
- 2) **BENEFITS VERIFICATION:** Before beginning treatment the patient's insurance coverage must be confirmed:
  - a. HCP submits Benefits Investigation and Enrollment Form to connect patient to Searchlight Support.Forms (available at [www.RADICAVA.com/HCP](http://www.RADICAVA.com/HCP)) can be submitted by the HCP online through a secure HCP portal, faxed or mailed.
  - b. Searchlight Support conducts rapid benefits investigation to confirm patient insurance coverage and assigns a patient ID.
  - c. A Care Coordinator from Searchlight Support can help the HCP's office identify a location for infusion service based on individual patient's insurance benefits and geographical proximity (ALS center, home infusion, physician's office, free-standing infusion center or hospital outpatient department).
  - d. Case manager contacts patient to explain benefits and discuss co-pay support options.
- 3) **SCHEDULING INFUSIONS:** Patient or HCP office contacts infusion site or home infusion provider and schedules the first cycle of treatment.
- 4) **RADICAVA ORDERED:** Site of care submits order form with patient ID to Searchlight Support to obtain RADICAVA for scheduled treatment. Searchlight Support facilitates RADICAVA shipment from distributor to infusion site once available in mid-August.

**For more information call 1-844-SRCHLGT ([1-844-772-4548](tel:1-844-772-4548)).**

#### **IMPORTANT SAFETY INFORMATION**

Before you receive RADICAVA, tell your healthcare provider about all of your medical conditions, including if you:

- have asthma.
- are allergic to other medicines.
- are pregnant or plan to become pregnant. It is not known if RADICAVA will harm your unborn baby.
- are breastfeeding or plan to breastfeed. It is not known if RADICAVA passes into your breast milk. You and your healthcare provider should decide if you will receive RADICAVA or breastfeed.

Tell your healthcare provider about all the medicines you take, including prescription and over-the-counter medicines, vitamins, and herbal supplements.

What are the possible side effects of RADICAVA?

- RADICAVA may cause serious side effects including hypersensitivity (allergic) reactions and sulfite allergic reactions.
- Hypersensitivity reactions have happened in people receiving RADICAVA and can happen after your infusion is finished.
- RADICAVA contains sodium bisulfite, a sulfite that may cause a type of allergic reaction that can be serious and life-threatening. Sodium bisulfite can also cause less severe asthma episodes in certain people. Sulfite sensitivity can happen more often in people who have asthma than in people who do not have asthma.
- Tell your healthcare provider right away or go to the nearest emergency room if you have any of the following symptoms: hives; swelling of the lips, tongue, or face; fainting; breathing problems; wheezing; trouble swallowing; dizziness; itching; or an asthma attack (in people with asthma).
- Your healthcare provider will monitor you during treatment to watch for signs and symptoms of all the serious side effects.

The most common side effects of RADICAVA include bruising (contusion), problems walking (gait disturbance), and headache.

These are not all the possible side effects of RADICAVA. Call your healthcare provider for medical advice about side effects. You may report side effects to MT Pharma America, Inc. at [1-888-292-0058](tel:1-888-292-0058) or FDA at 1-800-FDA-1088 or [www.fda.gov/medwatch](http://www.fda.gov/medwatch).
